Dear Professor,

Herewith my poor results on your last request, which I actually completed about a week ago, but mislaid the paper.

UCP IX p. 57 no.2 (new Mus. no. 9-2540)

- line: 2 (after i-^vsa-al) 
- 3 (after URU) 
- 4 (whole line) 
- 5 (after LÚ)  (it does not look like GAL)
- 6 (from beginning) 
- 8 (from beginning)  etc.
- 12 (end) 
- 15 (from begin)  habu-mu-še
- 16 (begin)  a-na é i-din
- 17 (begin) 

I must apologize for not offering any suggestions, as NB is not my metier at all, and the best I can do is copy what I think I saw.

As for the "juicy ^vmīsaebērak", I'm going on a diet as of now, and couldn't use it anyway; I've had plenty before, but I've never managed to be able to cash one in on something more substantial. But thanks anyhow; I herewith return the offer with the suggestion that you convert it to a special "lechayyim" on me ... but not too many at once.

Cordially yours,
